

**NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS
30 June 2005 (Unaudited)**

1. Summary of significant accounting policies

The principal accounting policies adopted in the preparation of these interim condensed financial statements are set out below:

a) Basis of preparation

The Saudi British Bank (the Bank) prepares these interim condensed financial statements in accordance with the accounting standards for financial institutions promulgated by the Saudi Arabian Monetary Agency (SAMA), International Financial Reporting Standards (IFRS), and the interpretations issued by the International Accounting Standard Board (IASB). The Bank also prepares its interim condensed financial statements to comply with the Banking Control Law and the Regulations for Companies in the Kingdom of Saudi Arabia.

These interim condensed financial statements are prepared under the historical cost convention as modified for the measurement at fair value of derivatives, available for sale investments, and fair value through income statement investments (FVIS).

The interim condensed financial statements are expressed in Saudi Arabian Riyals (SAR) and are rounded off to the nearest thousand.

Except for the changes explained in note 1b) below, the accounting policies used in the preparation of these interim condensed financial statements are consistent with those used in the annual financial statements for the year ended 31 December 2004.

b) Change in accounting policies

The Bank has implemented the revised versions of International Accounting Standard (IAS) 32 Financial Instruments: Disclosure and Presentation and IAS 39 Financial Instruments: Recognition and Measurement, effective 1 January 2005 with retrospective effect, wherever applicable, with respect to the recognition, measurement and disclosure of financial instruments.

The revised IAS 39 has introduced a new classification Fair Value through Income Statement (FVIS) under which financial assets and liabilities, except for investments for equity instruments that do not have a quoted market price and whose fair value cannot be reliably measured, can be classified and carried at fair value, with the changes in fair values recognised in the statement of income. This new classification includes financial assets and liabilities held for trading, and items that are designated as FVIS at the time of initial recognition. Following initial recognition, transfers between the various classifications of financial assets or liabilities are not ordinarily permissible.

Following the above changes, certain investments previously classified as originated debt securities, and, available for sale as at 1 January 2004 have been reclassified as a one time election as FVIS investments. The opening balance of retained earnings as at 1 January 2004 has been adjusted accordingly, with the difference between the amortised cost and the fair value of these investments. For investments purchased during 2004, and outstanding as at 31 December 2004 and reclassified as FVIS, fair value changes as at 31 December 2004 have been taken to net income. As a result of the above changes, the amount transferred to the retained earnings as at 1 January 2004, was SAR 1.8 million, and to the statement of income for the six months ended 30 June 2004, was 4.5 million (for the year ended 31 December 2004, was SAR 10.0 million).

2. Investments, net

Investment securities are classified as follows:

SAR'000	30 June 2005 (Unaudited)	31 December 2004 (Audited)	30 June 2004 (Unaudited)

Held to maturity	718,282	721,670	725,115
Total	16,969,290	14,676,034	15,446,095

Subsequent to the implementation of the revised IAS 39 on 1 January 2005, investments previously carried at amortised cost of SAR 1,650.0 million in held at amortised cost, other, are now carried at fair value of SAR 1,660.5 million (30 June 2004: SAR 1,656.4 million, and 31 December 2004: SAR 1,662.6 million) in held at FVIS, and investments of SAR 74.3 million previously included in available for sale, have been reclassified as held at FVIS. As a result of the reclassifications, SAR 0.2 million has been transferred from other reserves to retained earnings as at 30 June 2004. The cumulative impact as on 31 December 2004 amounted to SAR 0.8 million (note 5).

Investments included in above FVIS include investments held for trading of SAR 37.4 million (30 June 2004:nil, 31 December 2004: nil)

3. Debt securities in issue

During the quarter ended 31 March 2005, the Bank issued USD 600 million 5 year floating rate notes (the notes) under its Euro Medium Term Note programme. The notes carry an interest rate of Libor plus 37.5 basis points. The notes are non convertible, are unsecured, and are listed on the Luxembourg Stock Exchange.

4. Derivatives

The table below sets out the positive and negative fair values of the Bank's derivative financial instruments, together with their notional amounts. The notional amounts, which provide an indication of the volumes of the transactions outstanding at the end of the period, do not necessarily reflect the related future cash flows. These notional amounts, therefore, are indicative of the Bank's exposure neither to credit risk nor to market risk.

In accordance with the revised IAS 39, the unrecycled amount remaining in retained earnings relating to the fair values of available for sale investments, arising on the initial adoption of IAS 39, has been reclassified from retained earnings to other reserves. This adjustment results in a restatement of the opening balances at 1 January 2005 and 1 January 2004 by SAR 18.8 million and SAR 15.0 million, respectively.

6. Interim dividend, zakat and taxation

The Board of Directors has declared an interim gross dividend in respect of 2005 of SAR 526.0 million (2004: SAR 470.5 million). Zakat relating to the Saudi shareholders, amounting to approximately SAR 15.6 million (2004: SAR 12.4 million), will be deducted from their share of the dividend. This will result in a net dividend to the Saudi shareholders of SAR 10.00 per share (2004: SAR 9.00, adjusted for the bonus share issue). The income tax liability of the foreign shareholder will be deducted from its share of the dividend.

7. Credit related commitments and contingencies

The analysis of credit related commitments and contingencies is as follows:

9. Business segments

a) The Bank is organised into the following main business segments:

Retail Banking – which caters mainly to the banking requirements of personal and private banking customers.

Corporate Banking – which caters mainly to the banking requirements of commercial and corporate banking customers.

Treasury – which manages the Bank's liquidity, currency and special commission rate risks. It is also responsible for funding the Bank's operations and for managing the Bank's investment portfolio and balance sheet.

Transactions between the business segments are reported as recorded by the Bank's transfer pricing system. The Bank's total assets and liabilities as at 30 June 2005 and 2004, their total operating income and expenses, and the net income for the six month periods then ended, by business segment, are as follows:
